EXPERIENCE

Admiral Insurance

Junior Software Engineer

Cardif (Remote)

March 2022 - August 2023

- Collaborated in an agile team developing a full-stack web app (Angular frontend, Java Spring Boot, Postgres backend) with BigQuery integration. Leveraged Azure DevOps pipelines, GCP deployment, and Git version control.
- Resolved and documented bugs, improving application readability and user experience.
- Actively contributed to new features, enhancing portal functionality and user satisfaction.
- Played a pivotal role in optimizing the codebase, resulting in an impressive 20% reduction.
- Successfully rectified Nexus and Prisma Cloud errors within our Azure pipeline, ensuring seamless deployments.

nology_

Trainee Software Engineer

Bristol (Remote)

October 2021 - January 2022

- Gained hands-on experience in building responsive web applications using HTML, CSS, JavaScript, Java, and React.js during a rigorous 13-week software engineering boot camp
- Actively participated in code reviews, pair programming, and group projects, fostering a collaborative and quality-driven team environment.
- Contributed in a 4-week client project, gaining hands-on exposure to Scrum team dynamics and software development workflows.

SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript, TypeScript, React, Angular
- **Backend Development:** Java, Spring Boot, Postgres
- **Version Control:** Git
- **Deployment & CI/CD:** Google Cloud Platform (GCP), Azure DevOps
- **Agile & Collaboration:** Scrum, Jira, Confluence, Pair-Programming

EDUCATION

The University of the West England

BSC (Hons) Software Engineering for Business

Bristol

Grade: 2:1
