EXECUTIVE SUMMARY

Over a 3-year career in an android development, I have played an essential role in developing and improving a wide range of android apps across different platforms, where I have found my biggest passion. The motto that has driven my work all these years in development hasn't changed: I strive to build trust based on performance; I am committed to growth in my personal and work relationships.

WORK EXPERIENCE

DevSky

04/2022 - Present

Android Developer

Rawalpindi, Pakistan

DevSky is an innovative IT-based company that primarily focuses on developing its own products. Throughout my tenure of over a year as an Android developer at DevSky, I have been involved in numerous exciting projects as an integral team member. Within this collaborative environment, my responsibilities have encompassed:

- Leading the development of diverse Android application right from their inception, applying my expertise to build and efficient solutions from scratch.
- Adding new features, maintaining and removing bugs.
- Assisting junior team members and interns with their tasks and providing guidance when needed.

Working at DevSky has allowed me to gain valuable experience in building Android apps and contributing to the success of the team. I enjoy the collaborative environment and the opportunity to work on exciting projects. Right now, the company's many products which I worked on have reached 1M+ downloads on Google play store.

APPIC Solutions LLC

08/2021 - 04/2022

Android Developer

Islamabad, Pakistan

Appic Solutions is a client-oriented app production company that specializes in providing comprehensive IT solutions to its clients. During my tenure at Appic Solutions, I had the opportunity to take on a significant project independently, where I assumed complete responsibility for its management and execution. Being solely in charge of this major project allowed me to showcase my expertise and demonstrate my ability to handle complex tasks effectively. I successfully managed all aspects of the project, ensuring its smooth progress and ultimate success.

- Collaborate with cross-functional teams to define, design, and ship new feature.
- Enhancing the apps by introducing new features, diligently maintaining them, and promptly addressing any encountered bugs to ensure a seamless user experience.
- Involved in the addition of new features in existing app code.

At Appic, the commitment to developing cutting-edge products is ingrained in our work ethic, and I take pride in being an integral part of this dynamic team, delivering high-quality Android applications to meet the needs of our users.

MicroWeb Solutions Pvt. Ltd

01/2021 – 08/2021

Android Developer

Islamabad, Pakistan

As a part of MicroWeb Solutions, my role entails multiple responsibilities that contribute to the success of our projects and maintain high standards of code quality and organization. Some of my key responsibilities include:

- Maintaining a constant pursuit of knowledge within my areas of interest, actively seeking opportunities to expand my expertise and sharing that knowledge with the team in a meaningful and beneficial way.
- Ensuring code quality and organization by adhering to developer-friendly coding practices. By writing clean and efficient code, I contributed to the overall maintainability and scalability of the projects.
- Demonstrating ambition and a strong work ethic, consistently going above and beyond to meet project objectives and deliver high-quality results.

At MicroWeb Solutions, I embraced these responsibilities to support the team's goals and drive successful outcomes in our Android development endeavors.

MicroWeb Solutions Pvt. Ltd

11/2020 – 12/2020

Android Intern

Islamabad, Pakistan

As an Android intern at MicroWeb Solutions, I took on several key responsibilities that helped me gain valuable experience in the field. These responsibilities included:

- I actively participated in the development process of Android apps, working alongside senior developers to contribute to various stages of the app development lifecycle.
- I proactively researched and familiarized myself with the latest trends, tools, and techniques in Android development. This helped me stay updated and bring innovative ideas to the table.
- I assisted in testing the developed applications, identifying and resolving bugs to ensure optimal functionality and a smooth user experience. This helped me develop a strong attention to detail and an understanding of the importance of quality assurance.
- This commitment to self-improvement allowed me to consistently refine my abilities throughout the internship.

Achievements Project Details:

- **Infinix Peek Proof:** A replica of "Peek Proof" built in feature in infinix, techno devices. Made for all other android phones.
- **Screen Guard:** Covering 4 modules "Hide Notification", "Hide Contacts", "Child lock", "Hide Screen".
- **Business Card Maker:** Designing fully customizable business cards using either your own templates or our pre-designed templates.
- **Dictionary by DevSky:** Conversational translation, Magic translator to drag at any word and translate, Speak to translate.
- **What's Delete:** Recovering what's app deleted messages and media files (media files on conditional bases).
