Summary

Senior Software Engineer with over 10 years of experience in developing and delivering high-quality software solutions. Throughout my career, I have worked extensively in a wide range of technologies, including .NET, Azure, AWS, Kubernetes, Docker, React, Node, Redis, CircleCI, among others. With a focus on code quality and performance, I enjoy collaborating with cross-functional teams to deliver scalable and efficient solutions that meet business objectives

Experience

Senior Software Engineer

Groove, a Clari Company

Jan 2023 - Present (10 months)

As a member of the Customer Centric Engineering team, I actively contribute to resolving complex problems and addressing customer-reported issues on our platform. In addition, I play a key role in the development of new features. By combining my problem-solving skills with a customer-centric approach, I ensure that our platform continuously evolves to meet and exceed customer expectations.

Technologies: Ruby on Rails, JavaScript, TypeScript, React, Redis, Github, CircleCI, Sentry, DataDog, NewRelic, AWS, Docker, PostgreSQL, MongoDB

Senior Software Engineer

Poatek

Feb 2021 - Dec 2022 (1 year 11 months)

As a member of the Software Engineering team, my role entails developing and maintaining tailor-made software solutions for our clients, using a versatile tech stack. In addition to my development responsibilities, I actively foster a culture of knowledge sharing within the team. By sharing insights and expertise, I empower my colleagues to excel in their roles and contribute to the collective growth of our engineering capabilities.

Technologies: .NET, Node, JavaScript, TypeScript, React, Redis, Github, Azure, Docker, Kubernetes, SQL Server, CosmosDB

Senior Software Engineer

Currys plc

May 2020 - Feb 2021 (10 months)

As a member of the Data Aces team, my role entails developing and maintaining software solutions that enhance the overall customer experience across our stores and websites. With a focus on continuous improvement and using a versatile tech stack, we aim to provide seamless and user-friendly experiences for our customers.

Technologies: .NET, JavaScript, TypeScript, Vue, Redis, Github, Sentry, NewRelic, AWS, SQL Server, MongoDB

Software Engineer

KIND - Smart Solutions

May 2019 - Apr 2020 (1 year)

Responsible for develop and maintain software solutions that significantly enhance control, quality, and speed within the manufacturing flow. These solutions encompass a wide range of critical functionalities, including stock management, assembly validation, quality checklists, customer budget generation and more.

Technologies: .NET, JavaScript, TypeScript, React, React Native, Redis, Azure, Azure DevOps, Sentry, Docker, SQL Server, MongoDB

Software Engineer

ZAP+

Oct 2017 - Apr 2019 (1 year 7 months)

As a member of the Payments team at ZAP and Viva Real, my role entails developing and maintaining our new and unified payment stack, for both real estate portals. By collaborating closely with cross-functional teams, I continuously work towards refining our systems to meet the dynamic demands of the real estate market.

Technologies: .NET, Python, Node, JavaScript, TypeScript, React, Redis, Github, Sentry, DataDog, NewRelic, AWS, Docker, Kubernetes, SQL Server, PostgreSQL, MongoDB, Elasticsearch

Software Engineer

SONDA

Apr 2015 - Sep 2017 (2 years 6 months)

As a member of the Research and Innovation team, my role centers around analyzing client environments to identify opportunities for improvement and minimize issues. By closely examining client environments, I gain deep insights into their pain points and areas that require enhancement. Leveraging this knowledge, I design and implement tailored web and desktop applications that address their specific needs, aiming to optimize efficiency and effectiveness.

Technologies: .NET, JavaScript, HTML, CSS, Bootstarp, JQuery, SQL Server, VSTS

Software Engineer Internship

BRIT Consultoria

Jan 2013 - Oct 2014 (1 year 10 months)

Plan computing solutions to clients

Develop applications on demand for small / medium businesses

Develop technical skills, which just graduation no provides basis

Technologies: .NET, JavaScript, HTML, CSS, Bootstarp, JQuery, SQL Server, VSTS

Education

Faculdade de Tecnologia de São Paulo - FATEC-SP

Technologist in Systems Analysis and Development, Software Development

Jan 2012 - Dec 2014

Etec - Escola Técnica Estadual de São Paulo

Computer Technician, Software Development

Jan 2010 - Jun 2011

Skills

.NET • TypeScript • JavaScript • Node.js • React.js • Amazon Web Services (AWS) • SQL • MongoDB • Kubernetes • Git
