ABOUT ME

Well-qualified Full Stack Developer familiar with a wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Able to handle any part of the process with ease. Collaborative team player with excellent technical abilities.

WORK EXPERIENCE

19/12/2023 – CURRENT Tirana, Albania

Software Engineer Expert Sisal

- Part of the development team for building and maintaining an IDP (internal development platform) build using Backstage framework which itself is written react and typescript , used by one biggest company in online betting industry like Flutter entertainment group.
- Refactoring and redesigning plugins (microservices) used by the application
- Collaborated with cross-functional teams, including DevOps, Product Management, and UX/UI, to understand requirements and implement solutions that align with business objective
- Implemented custom plugins and extensions to extend the functionality of Backstage, catering to the specific needs of the development teams. Conducted thorough testing and debugging to ensure the reliability and performance of custom plugins and integrations within the Backstage ecosystem.
- Worked closely with the Backstage community, staying updated on the latest developments, contributing to discussions, and incorporating best practices into the company's implementation.

11/06/2021 – 19/12/2023 Tirana, Albania

Software Developer Digital Deloitte

- Collaborated as a member of a SCRUM team, ensuring timely and high-quality delivery of all projects.
- Implemented and maintained the Online Book Appointment feature for makeup services on Estee Lauder Websites.
- Utilized React.js and CSS3 for front-end development of newly migrated websites, while employing Vanilla JavaScript for the Legacy project. This involved troubleshooting and resolving production issues.
- Employed PERL, an older yet intriguing technology, to implement the business logic for back-end development. Recognized for exemplary work ethic and discipline, consistently delivering projects on time.
- Designated as a "Guard Developer," entrusted with critical projects, and consistently meeting project deadlines.
- Maintaining and resolving bugs of Appointment HQ project , this is a tool based on Laravel and VUE tech where shop owners could log in and do specific task like adding services , accepting or refusing booking , see statistics for each shop and service etc

15/11/2020 – 08/06/2021 Tirana, Albania

Webmaster SoftSolution

- Maintaining and updating government websites
- Troubleshoot server configuration problems
- Creating and maintaining wordpress websites
- Monitoring websites performance
- Troubleshoot server synchronization in a master-slave architecture

10/06/2020 – 05/10/2020 Tirana, Albania

Full stuck web developer Big media expert

- Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings.
- Developed back-end components to connect applications with web services.
- Coded websites using HTML, CSS, JavaScript and jQuery languages.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX and JSON coding.
- Oversaw back-end development using PHP to maintain website integrity, security and efficiency.
- Pulled from PHP, SQL, JavaScript and other back-end library knowledge to bolster programming resources.
