EXPERIENCE

Sr. Mobile Application Developer (May 2022 – August 2023)

Jingle Pay Ltd (Fintech App), Dubai, United Arab Emirates

<https://play.google.com/store/apps/details?id=com.jinglepay>

Working as Mobile lead closely with internal teams such as developers, product, UX and QA

- Architect app using multi modular approach and applying MVM architecture with android clean architecture.
- Main tech responsibility includes finding solution to requirements, developing new feature, reviewing code and releasing version to Google Play store.
- Constantly monitored the stability of application using various tools including crashlytics.
- Exposure to agile development process like SCRUM and expertise in JIRA and Confluence.
- Reviewed code and conduct technical interviews with questions and challenges.

Sr. Mobile Application Developer (July 2020 - April 2022)

Ebryx, Lahore, Pakistan (Kotlin, Swift)

<https://play.google.com/store/apps/details?id=com.southeastunloading.divlog>

As a senior mobile developer, I am worked here in developing android as well as IOS apps.

- Understand System and analyze complete requirements. Conduct Walk-through, requirements gathering meetings, and propose the right solution.
- Working with an international client and participating in all the scrum meetings and planning.
- Design and architecture the apps for both platforms.
- Complete app development for both android as well as IOS by using Kotlin and swift languages.
- Client communication to deliver releases and incorporate feedback.

Sr. Android Application Developer (July 2017 - Nov 2019)

Wateen Pvt Ltd, Lahore, Pakistan (Java, Kotlin, VOIP, Web RTC)

<https://play.google.com/store/apps/details?id=com.wateen.wateenhub>

Led the team and I am responsible for architecture and development for many in-house products from scratch till production.

- Estimate the finalized functional and non-functional requirements and the making of WBS.
- Design and architect modules by implementing different design patterns.
- Successfully deliver different modules and follow agile completely.
- Providing technical consultations and expertise to other teams. Also, participate in technical planning architectural exercises.
