II ABOUT ME

I am an accomplished .NET full stack software developer with over 20 years of experience in the computer industry. Passionate about technology and embracing the rapid pace of change, I thrive on investigating new sectors and crafting disruptive solutions to longstanding problems. I have experience working at all stages of the development lifecycle and am an expert in problem solving technical issues. I'm enthusiastic about sharing knowledge and am experienced at providing training and workshops. I bring a unique blend of technical expertise, strategic vision, and business knowledge to the table and can engage with stakeholders at all levels.

II EDUCATION

1997 – 2001 | BSc (Hons) 2:1 COMPUTING FOR REAL TIME SYSTEMS

University of The West of England

Applied computer science degree providing a practical focus on real-time computer applications.

1995 – 1997 | Distinction BTEC COMPUTER STUDIES

Filton College Bristol

Practical course designed to provide detailed knowledge of programming, computer systems, analysis, and design.

II WORK & EXPERIENCE

2015 - Present | DIRECTOR/FOUNDER - Lead Developer

Panache Software & Panache Sports (Founded 2023)

Founded Panache Software to develop and provide an Open Source legal process management tool to small and medium size legal organisations to drive efficiencies in their workflow. In 2023 founded Panache Sports to provide sports organisations with a SaaS platform containing standardised legal processes and documents to help minimise their risk. Full development ownership of a modern, micro-service based, SaaS application built using .NET and utilizing the Microsoft Azure platform.

- Invited by to be part of a Department for International Trade Legal Tech Event in Austria and Switzerland.
- Presented and produced a Legal Tech Podcast with collaboration from leading industry voices.
- Fully responsible for design and development of a modern SaaS (Software as a Service) platform.
- Development using C# .NET, Blazor, Azure Functions, Azure App Services, CosmosDB, API Management.
- DevOps using GitHub, CI/CD pipelines, project boards.
- Azure OpenAI (Bring your own data) implementation including Azure Cognitive search and services.

2017 - 2023 | DIRECTOR/FOUNDER - Customisation Specialist

Tech4 Consulting Ltd

Founded Tech4 Consulting to provide technical consultancy for a large Enterprise Resource Planning system to clients across all sectors globally. Responsible for a small development team and management of office staff, along with maintaining relationships with clients and partner organisations. Engaged with clients on all aspects of their project, from requirement gathering, through development, management, and release.

- Engage with clients and partners to plan, manage, and complete technical projects.
- Manage day to day operations of Tech4 Consulting including strategic planning of future work.
- Attend and present at user groups and other events as well as provide in person and online training.
- Built custom solutions using Isolated Azure Functions, App Services, SQLServer and Cosmos DB.
- Technical Skills: C# .NET, SQL Server, Oracle, REST APIs, SOAP Webservices.
- Provide expert consultancy in all technical aspects of the Unit4 ERP product and eco-system.

2004 - 2017 | SENIOR TECHNICAL CONSULTANT

Unit4

Worked within the UK Professional Services team to specify and develop custom solutions across all UK business sectors. Expert in all technical aspects of the Unit4 ERP product. I worked closely with clients on small to large scale (organisation wide) custom projects managing requirements cost and time. Involved in strategic decisions relating to support and maintenance of Unit4 custom solutions.

- Received global consultant of the year and top performer on two subsequent years.
- Trained staff in other regions on new technical aspects of the Unit4 ERP product.
- Supported the global R&D team with projects to create and support new functionality.
