

ZEESHAN AHMED KHAN

Address: Karachi, Pakistan
Cell: (+92)312 – 2467989
Home: (+92)21 – 34010027
Email: khan.zeeshan85@gmail.com

Date of Birth: 05 - Nov - 1985
Marital Status: Married
Nationality: Pakistani
Language(s): Urdu, English

OBJECTIVE

Software Architect who has more than fourteen years of experience developing proprietary/enterprise software products and has optimum excitement in using various technologies to design, develop, and attentively deploy real enterprise-class software, including building knowledge of customers' environments and their use of products.

PERSONAL STATEMENT/CAREER SUMMARY

- A performance driven strategic leader and accomplished software architect with 12+ years of experience in aligning technology with business needs.
- **Good hands-on experience in .Net Technologies, ASP.Net, C#, MVC Architecture, UI Designing, N tier applications and Service oriented Architecture large and scalable applications, Excellent database designing and querying skills.**
- **Good Knowledge of JavaScript, jQuery, SOAP and REST API**
- Proven track record of delivering complex projects within timelines, budget, and scope.
- Handled end-to-end development of projects from inception, requirement specifications, design, implementation, configuration management, documentation, and closure with teams.
- Possess understanding of Project/Client Requirements coupled with hands-on exposure in handling all phases of Project/Program Life Cycle, right from requirement analysis, project scoping, planning & scheduling to the implementation of robust technology solutions within time, budget, and quality.

Domain Knowledge

Web Application Development	Mobile App Development	Project Management
Hospital Management System	Nursing Home System	eCommerce Solutions

COMPUTER SKILLS

Programming Languages

- C#
- ASP.NET
- Java (Android)
- JavaScript/jQuery
- CSS
- Objective-C
- HTML
- SQL
- Xamarin
- Kotlin (Android)
- Wordpress
- Php

ECommerce Solutions

- Shopify
- Custom Solutions

Development Tools

- Visual Studio 2003 till 2017
- SQL Server 2000, 2005 & 2008
- Oracle 8i, 11g
- Adobe Photoshop CS3, CS4
- XCode
- Eclipse
- Android Studio

ORMs

- Entity space
- Entity Framework

Reporting

- FastReport.NET
- Crystal Reports

Cloud

- Azure
- SQL Azure

Data Representation Formats

- XML
- JSON
- HL7
- CSV

Webservice

- WCF
- ASP.NET

EXPERIENCE

**Oct 2015 –
To Present**

Software Architect @ Mobile Medsoft

- Leads a team of 7 developers, testers, and analysts in developing multiple projects from scratch to be integrated with existing platforms.
- Developed a comprehensive set of software development best practices that increased code quality and overall system performance.
- Designed and developed an enterprise-level application architecture that enabled scalability, high availability, and security.
- Collaborated with cross-functional teams to ensure that the system meets customer requirements and business objectives.
- Led a team of software engineers to successfully develop a major software project on time and within budget.
- Defines product requirements and creates high-level architectural specifications, ensuring feasibility and functionality with existing platforms.
- Develops software and follows the company SDLC (Software Development Lifecycle), which includes Agile sprint tasking and management.
- Relies on extensive experience and judgment to plan and accomplish goals on a consistent and productive basis.
- Maintained published software and performed code reviews using GitHub.
- Ensured that a safe and secure work environment was maintained in compliance with corporate policies and federal and state regulations, resulting in 100% company compliance.
- Led prototype, work breakdown, effort estimate, and feature prioritization for multiple project plan commitments, and provided reasonable milestones.
- Led technical review of framework and subsystem design to align well with overall system architectures.

**Jul 2015 –
Sep 2015**

Manager Business Solutions @ Abudawood Pakistan

- Conducted a comprehensive analysis of existing business processes to identify inefficiencies and develop solutions to improve operational efficiency.
- Developed and implemented a business continuity plan that ensured business operations continued seamlessly in the event of a crisis.
- Designing the architecture of the application & database based on the requirements.
- Code Review & Oversee Development Team
- Ensuring timely completion of projects & Individual tasks.

**Feb 2009 –
Jun 2015**

Senior Software Engineer @ Mobile Medsoft

- Serve as a Technical Lead contributing to and directing the efforts of development teams, including internal and external team members.
- Contribute to the ongoing evolution of the existing content supply portfolio of applications and services.
- Design, develop, modify, implement, and support software components anywhere in the Software stack.

- Determine the root cause for the most complex software issues and develop practical, efficient, and permanent technical solutions.
- Remain current on new technologies and available vendor packages; evaluate and make recommendations as necessary.
- Assist in task planning, estimation, scheduling, and staffing.
- Mentor team members to allow for skill/knowledge development through advice, coaching, and training opportunities.
- Determine process improvements, best practices, and develop new processes.
- Work in close partnership with cross-functional teams and management.
- Develop high-quality software design and architecture.
- Identify, prioritize, and execute tasks in the software development life cycle.
- Develop tools and applications by producing clean, efficient code.
- Automate tasks through appropriate tools and scripting.
- Review and debug code

EDUCATION

2014 – 2016 Master of Science in Computer Science from **NED University of Engineering and Technology, Pakistan**

2005 – 2008 Bachelors of Science in Computer Science from **University of Karachi, Pakistan**

FREELANCE WORK

(ANDROID APPLICATIONS)

- UPass Fitness App (<https://play.google.com/store/apps/details?id=com.upass.upassapp>)
- UPass Admin App (<https://play.google.com/store/apps/details?id=com.upass.upassadmin>)
- ProQ (<https://play.google.com/store/apps/details?id=com.uhfsolutions.app>)

(COMPLETE SOLUTION)

- **Consultant:** ECommerce Solution using MVC, MongoDB, SQL-SERVER (**Under Development**)
 - Business Logic
 - Troubleshooting
 - Mobile App Developer
- **Consultant:** Cross-Platform, Event Management Solutions
 - Architecture
 - Business Logic
 - Xamarin
