Work Experience

Data Scientist
Fiskars Group | *Jan 2023 - currently*

- Used ML algorithms for pricing optimization and finding the frequently bought together items in the retail industry

Data Scientist
2operate | *Dec 2018 - Jan 2023*

- Used Python for ML unsupervised cluster analysis and at different stages of data analysis and preparation
- Been a part of the ETL process and data warehousing (MySQL)
- Worked on various BI projects involving customers from the telecommunication industry and created BI reports for development and promotional purposes

Assistant Business Intelligence Specialist
Talenthub.io | *Aug 2018 - Oct 2018*

- Worked on various BI projects (built mainly in PowerBI and data studio) and created CRM-based insights

Education

Master of Science (MSc) in Computer Science
Aalborg University

- Decoding EEG data into motor intention movements using a CNN-based spatial-temporal algorithm. It could be used to "mind control" an exoskeleton.

Professional Bachelor Of Software Development + AP
University College of Northern Denmark

- Elective semester in Big Data: Business Intelligence & Python
