PROJECTS DEVELOPED

Blockchain Based Student Academic Record Sharing System For Exchange Students ⧉

- A permissioned blockchain system is deployed in order to facilitate academic information sharing. Quorum version of Ethereum Blockchain is used which supports private transactions.

Smart Bulletin Board ⧉

- Smart Bulletin Board is a connected bulletin board that will enable the students and the flier posters to interact with each other, enabling the customers to see the statistics about their advertisements and enabling students to apply for the job advertisements directly.

Culturage ⧉

- Culturage is a crowdsourced website where users can add, view or contribute to items that are considered as cultural heritages.
