Adeniyi Azeez

+447733738545 | gafarazeez110@gmail.com | Bromley, London

Summary

Enthusiastic graduate student with a strong interest in machine learning, business automation, cybersecurity, and sustainability. Excited to collaborate on projects that match my skills and interests while learning from experienced professionals. I aim to strengthen business and IT processes, as well as supporting sustainability. Proficient in attentive listening, attention to detail, honed through years of customer service. Skilled in maintaining meticulous documentation and delivering compelling presentations.

Education

University of Sunderland
MSc. Applied Cybersecurity | 06/2024
Modules

- Cyber Resilience and Incident Response
- Information Technology Security Management for Organisations
- Cybersecurity and User Experience
- Cryptography in Cybersecurity

University of Sunderland
Associate Business Organisation | 08/2022
Modules

- Organisational Behavior
- Project Management
- Business Continuity
- Risk Management

Yabatech | Lagos, Nigeria
HND Business Administration | 06/2019

Yabatech | Lagos, Nigeria
OND Business Administration | 05/2017

Experience

Cyblack | London
IT Security Intern | 09/2023 - Present
Investigate incidents i.e., phishing, unauthorised access, malware infections in the organisation. Communicate outcome and resolution to relevant stakeholders.

Maintain and review cloud infrastructure security to ensure adequate protection and visibility at all times using Azure Sentinel, Microsoft Defender, and Splunk.

Research the organisations threat landscape, and produce intelligence for securing organisational assets.

Create targeted security awareness training for the employees using knowb4, wizer, and proofpoint.

WISA Solutions, LLC | London
Deskside Support | 06/2022 - 09/2023
Configured and deployed workstations using Active Directory for creation/modification of user accounts, groups, and policies.

Supported the installation and troubleshooting of internal software and services.

Replaced faulty employee systems by setting up computers, transferring data, and installing Dell, Mac, and HP devices.

Installed/Troubleshoot hardware and peripheral components like disk drives, printers, keyboards, and monitors.

Provided end users remote and on-site technical support via ServiceNow ticketing system.

Setup new employee email accounts within Microsoft Exchange and integrated users into SharePoint.

Skylar Consulting | Lagos, Nigeria
Project Manager | 02/2018 - 12/2021
Led the setup of a new office location in the capital city, achieving 40% revenue increase.

Worked with the IT team to implement secure communication channels between two branches to enable the transfer of customer data.

Ensured seamless communication between branches by implementing a project management framework and scheduling regular meetings between executives.

Successfully managed the project within budget and on schedule, resulting in the expansion of operations across the country.

Skylar Consulting | Lagos, Nigeria
Technical Support | 09/2016 - 02/2018
Provided technical assistance to customers using cPanel, WHM, and DNS configuration.

Collaborated with cross-functional teams using ServiceNow to manage, troubleshoot and resolve issues.

Developed Python scripts for automating routine support tasks, improving efficiency.

Updated hardware/software repository and documentation for operational efficiency.

Wuamok, Electronics
IT Support | 05/2015 - 09/2016
Streamlined communication channels between internal teams and external vendors, expediting the resolution of technical issues and minimizing downtime for enhanced productivity.

Devised and implemented proactive support strategies, such as user training programs and a comprehensive knowledge base, resulting in increased end-user satisfaction and a substantial reduction in support requests.

Expertly analyzed intricate technical challenges, promptly identifying root causes and delivering innovative solutions while maintaining a positive and customer-centric approach.

Efficiently communicated with diverse stakeholders, both technical and non-technical by building interactions.

Fixam Farms | Lagos, Nigeria
IT Support | 08/2013 - 05/2015
Spearheaded collaborative efforts with vendors and stakeholders to optimize procurement processes and strategies, yielding cost savings and streamlining supply chain management.

Maintained comprehensive technical documentation, facilitating efficient troubleshooting and incident response, while also enabling seamless knowledge transfer for future use.

Performed routine system maintenance, including software updates and backups, ensuring uninterrupted business operations and boosting system availability and reliability.

IT Tools

ServiceNow, Office 365, Active Directory, Azure Sentinel

Programming Languages

Linux-Apache-MySQL-PHP Stack, Python, Pandas, Numpy, React.js, KQL

Certificates

Microsoft Certified Azure (AZ-900), ISC2 Certified in Cybersecurity, ITIL v4, Microsoft Certified Azure Security Engineer (AZ-500)

Projects

- Object Detection: Training a model to exhibit resilience to adversarial patches.
- LFS: Built my own Linux environment from scratch using the LFS guideline.
- Database ETL: Using Python and SQL, I developed robust Extract, Transform, Load (ETL) pipelines to efficiently extract data from various sources, transform it according to specific business requirements, and load it into the target database seamlessly.

Interests

AI/ML Applications in IT Security Enhancement

Data and Server Administration Optimization

Cloud Computing and Scalability Solutions
