## Work Experience

**Tata Consultancy Services, Bangalore, India**
**Software Engineer                Jul 2021-Present**
**Project:** Tryg A/S (DSS- Digital Shared Services)
**Project Description:** DSS provides Different insurance: Car, motorcycle, travel, Pet-health etc.

**Self-given Solutions to a Team and accomplishment:**
- Refresh scope - Changed application properties dynamically –Eliminate downtime for the services.
- Introduced generic services to reduce duplicate code and implemented swagger for atomic service, so API testing will be easy for the testers.

**Key Responsibilities:**
- Requirement Analysis.
- Design, Develop and Implement APIs for insurance (Digital Shared Services).
- Microservices Deployment.
- Junit Test cases / APIs Testing.
- GIT Activity (Repo, Project, Branch creation and merging etc.).

**Vedant Tech Solutions, Bangalore, India**
**Software Trainee                Jul 2018-Jun 2019**
**Project:** Human Resource Management System
**Project Description:** HRMS contains user's PIS, Leave, TD, LTC, Telephone and HR Training Details.

**Key Responsibilities:**
- Writing and maintaining code.
- Worked on Production bug fixes.
