Profile

Front-End Developer with 6+ years of relevant experience building banking projects and apps in fast paced, collaborative environments. Highly skilled in HTML/CSS, JavaScript/Angular/React, Node JS, Express JS. My role is to write and style the front-end components that meet the requirements of our mocks and fulfill our user stories, I also monitor and process pull requests for production deployments. Well-versed in Scrum and Agile.

Projects

Shared Business Profile,

July 2022 – September 2023

React js, Redux, Redux-thunk, Express js, Ramda
SBP has two flows, one is for customer support and other one is for maintaining/reviewing customer query process. here customers can make an enquiry through telephone or email, and based on the given details we can resolve/decline/cancel

Solar Panels, SunContract, *React js,*

April 2022 – June 2022

Redux-toolkit, Redux-thunk, HTML5, SCSS, Express Js, Node Js
This is a dashboard for people to buy/sell Solar panels, where they can view analytics about the solar history.

They can make an offer to any solar panel they are interested in, also the project has notifications, activities and profile of the user

CryptoBunny, *React js, Redux-thunk, HTML5, CSS3*   December 2021 – March 2022
CryptoBunny is basically a cryptocurrency app, where user can come either via some other platform to pay the bill using cryptocurrency or
they can create their profile and use for personal usage. Their user can deposit, transfer the crypto.

Pay360 Evolve, *React js, Redux, HTML5, CSS3*   February 2021 – February 2022
This product is related to payment handling, where various merchants can enroll themselves to our system, where they can accept or make payments.We have integrated few payment methods like Paypal, Apple Pay, Credit card, Debit card

Console Dashboard, *Angular 6, HTML5, CSS3*   February 2019 – February 2021
Console Dashboard is divided into 3 sections, 1. Content Management, 2. Project Management, Analytics. For Content Management, This is the
place where we can upload assets (images, videos, text files, pdfs) to create Campaign. For Project Management, Project manager can create
project and sectionized it, and assign respective team members to work on their specific tasks. For Analytics, we have D3.js and apex charts, where we can view the report in graphical manner.

SCB Abacus   August 2017 – February 2019
Siam Commercial Bank (SCB) project Abacus is business loan application, where banking customers can apply for loan to start the small
scale to large scale business, this project involves level of authentication and verification before load approval.
